

Think your rights are safe?

Fundamental rights for women hang by a 5-4 thread.

family & medical leave
pay equity
access to contraception
protection from violence
abortion rights
affirmative action
lesbian rights
privacy in our homes
title ix: equality in education

OUR INDEPENDENCE

We have fought long and hard for these rights.
We can't afford to take them for granted now.

Call your Senators today! Urge them to oppose any Supreme Court nominee who would overturn *Roe v. Wade* and limit rights of women and girls in the U.S.
Senate switchboard: 202-224-3121.
