

Equal marriage is...

An issue of justice

Separate but equal is not what makes a democracy.

A feminist issue

If all women are not treated equally, all women will never have equality.

A civil rights issue

The Federal Marriage Amendment would further limit our civil rights.

A way to end discrimination

Equal marriage would mark progress in ending discrimination against same-sex couples.

A way to strengthen the Constitution

Allowing same-sex marriage expands the rights and liberties of LGBT people in the U.S.

It's time to organize NOW!

Block the Federal Marriage Amendment.

Stop your state from banning same-sex marriage.

Equality depends on it!
